

MEDICAL RECOMMENDATIONS FOR FOREIGN STUDENTS ARRIVING IN FRANCE

Below are some health requirements for your registration at the University of Poitiers:

1 - Before leaving your country of residence you are requested to obtain a chest X-ray with a doctor's medical interpretation and to present them to the University Health Service upon arrival in Poitiers:

Building C4, 4 allée Jean Monnet

Telephone: 05 49 45 33 54

E-mail address: infirmiers@univ-poitiers.fr

If you do not present the X-ray and its medical interpretation upon arrival you must obtain and present them within three months of your arrival in France. A prescription for the X-ray may be obtained from the University Health Service.

2 - We recommend that you undergo a free medical check-up (medical consultation and blood test) within three months of your arrival in France.

For this check-up you will have to make an appointment by phone or by email with the Health Examination Centre of the Primary Health Insurance Fund:

Centre d'Examens de Santé de la Caisse Primaire d'Assurance Maladie

79 rue de St Eloi BP 20252

86006 Poitiers cedex

Telephone: 05 49 62 75 75

E-mail address: ces@cpam-poitiers.cnamts.fr

The Student Health Service of the University of Poitiers would like to express its gratitude for taking these recommendations into account.
